Terms of References for Area Leader

The RC LACE Area Leader (AL) is a three-quarter-time position unless stated otherwise in the contract. AL acts under the responsibility of PM. The duties of AL are:

- AL is responsible for the preparation of the Scientific Plan together with the Programme Manager.
- AL designs, organizes and leads research activities that belong to the designated area.
- AL organizes the individual and group research stays or working days/week (together with the Programme Manager).
- AL collects ideas and proposes Projects and defines scientific, technical and organisational background for the Projects.
- AL can be responsible for one or several Projects at the same time. AL is responsible for coordinating the scientific work belonging to his/her area of research, for supervision of the RC LACE scientists work on associated topics and performs a scientific surveillance of relevant issues in order to accomplish the Scientific Plan and contribute to its future evolution.
- AL presents the progress reports on the tasks to the RC LACE Steering Committee.
- AL leads Projects and coordinates the dedicated manpower and other means necessary for the Projects fulfilment.
- Together with the PM, AL plans and coordinates Project operational deliverables.
- AL ensures the implementation of the relevant research developments to the ALADIN System in coordination with the System and Code Coordinator.
- AL participates in inter-consortia coordination activities.
- AL can deputise RC LACE PM during the short time period, upon PM or RC LACE President request, approved by RC LACE President.
- AL may transfer a part of the responsibilities for certain research activities in the designated area to a Project Leader if approved by LSC and Council.
- AL can also execute duties of the equivalent AL in the common ALADIN-LACE-HIRLAM Consortium if there is an overlap in duties.
